

## Instructions for the Preparation of Posters

### General Information:

The Posters will be presented and numbered according to the list which can be downloaded from the website

Each poster should be in the size of

**0,85 m width and 1,2 m height (DIN A 0) vertically orientated.**

The **poster number** will be mounted by the organizers.  
Material for attaching the posters and illustrations will be supplied by the organizers.  
Writing or painting on the poster walls is not allowed.

The **author's name and address** and the **title of the paper** are to be indicated on the top section of the Poster.

### Poster display times:

All posters may be presented from Monday, April 23, 2007, 11:00 h until Wednesday, April 25, 2007 (End of the conference).

The authors are expected **to be present during the Poster Sessions.**

### Preparation of the Poster:

As a major guideline it is proposed to make the poster intelligible in itself, even in the absence of the author. It is suggested to divide the contents of each poster into **introduction, results** and **conclusions**, with a summary listing the pertinent results and conclusions.

The poster should be legible from a distance of 2-3 meters.

Therefore, the **minimum size** should be:

- 20 cm for graphs;
- 3 cm for the paper's title and the names/addresses of the authors in the heading label;
- 1,5 cm for sections headings such as introduction, results, labelling of figures and tables;
- 0,8 cm characters in height for further text.

Line spacing: 1,1 cm at minimum; 10 of such lines correspond to one figure.

Please use colours, symbols and schemes for improved clarity.
